Re: Ser.No. 10/523,144

Inventor: Giulio Nicita

Dear Examiner Dorna:

This re-confirms our interview scheduled for 2:00 PM tomorrow, Monday, August 2, 2010, with the inventor Prof. Nicita.

I have attached a Proposed Amendment for discussion at the interview. I sincerely apologize for the unconventional format of "tracked changes" appearing in the text, which is presently out of my control. I will telephone your office tomorrow morning and try to arrange email to you of this document to better show the included illustrations.

Respectfully submitted,

J. David Dainow
